## EXPERIENCE

**Google Developer Groups on Campus Murdoch University Dubai,** 05/2026 – Present | Dubai, UAE  
*Creative & Media Lead*  
Leading a team responsible for designing and creating promotional materials and media assets for events, workshops, and community activities while maintaining consistent branding and visual identity.

**Pearl Data Direct, Cybersecurity Intern** 10/2025 – 12/2025 | Abu Dhabi, UAE  
During my internship, I learned to navigate and use Rapid7 to create automated security workflows. I gained practical experience with Qualys, including vulnerability scans, patch management, installing cloud agents, and conducting policy compliance scans after applying CIS benchmarks through Active Directory Group Policy Management. I also learned to navigate CrowdStrike Falcon for endpoint security monitoring and developed foundational knowledge of Active Directory.

## EDUCATION

**Bachelor In Information Technology, Murdoch University Dubai** 08/2024 – Present | Dubai, United Arab Emirates  
Majoring In Computer Science and Cybersecurity & Forensics

**High School Diploma, Abu Dhabi Indian School** 2018 – 2024 | Abu Dhabi, United Arab Emirates

## SKILLS

|                                                                                                                                                                  |                                                                                                                                                               |                                                                                                                                                                                                              |                                                                                                                                                                                                                                       |

## AWARDS

**Artificial Intelligence National Championship,** 09/2023  
*Ministry Of Education, United Arab Emirates*  
• Won 3rd place in the ChatGPT category at the Artificial Intelligence National Championship held at the University of Sharjah. Developed an application powered by ChatGPT and Whisper API to transcribe and translate audio/video into text or subtitles.

**3rd Annual STEM Programming Competition, Abu Dhabi University** 01/2024  
• Placed 3rd in Abu Dhabi University's STEM Programming Competition, showcasing problem-solving and coding skills.

## PROJECTS

**Ludus** 🌐, *Video Game Recommendations* 2026  
• Developed a website that recommends video games to users, made using NextJS and uses IGDB (Internet Game Database) API to fetch game details and AppWrite for storing user-made lists of games. Hosted on Vercel

**ADIS Save Water App, Abu Dhabi Indian School** 2023 – 2024  
• Led a development team that built the ADIS Save Water app to help communities track water usage, get conservation tips, and find local water-saving events. Features include manual and scannable tracking of water bills (UAE only), an event finder, and a gallery of ADIS initiatives. Made with Flutter by using Firebase for user authentication and MongoDB for user data storage

**SyncUp Drive, Cloud Storage Solution** 2024 – 2025  
• Developed a cloud storage web app made using NextJS and uses AppWrite for user authentication and file storage, enabling users to upload, manage and access their files online. Hosted on Vercel

**Atmosfär, Weather Application** 2021 – 2024  
• Built a cross-platform desktop application using ElectronJS, which leverages HTML, CSS and JavaScript. Shows current weather and astronomy details based on geolocation, with dynamic video backgrounds that change based on time of day and weather. Web version hosted on Netlify

**RelayCall, Video Calls** 2023 – 2024  
• Built a video conferencing web app similar to Zoom with scheduling and recording features, using Clerk for user authentication and Stream for managing calls and NextJS.
